PASSION FOR TRAILS

CONCEIVED AND DESIGNED TO MASTER OFF-ROAD CHALLENGES, OF MUD, STONES, SAND AND ASPHALT. THE CORVUS ADVENTURE T900 IS THE SIDE BY SIDE CUSTOM-MADE FOR THOSE WHO LOVE ADVENTURE AND WANT TO EXPLORE NEW GOALS.

ENJOY EASY AND AGILE DRIVING THAT IT'S 900 CC PETROL ENGINE OFFERS. COMPLETE WITH A ROBUST CHASSIS WHICH WILL MAKE YOU FEEL THE TRAIL SPIRIT IN A WHOLE NEW WAY

IT'S TIME TO EXPLORE WITHOUT LIMITS

Being at the controls of the CORVUS AdventureT900 you will feel the power and thrill associated with a pure trail driving experience, thanks to the ability of being able switch between two innovative drive systems of either 4x2/4x4, both guaranteeing excellent traction off-road and unrivalled ability on road. Forget limits and allow yourself to be seduced by its exterior lines subtly highlighted in orange and anthracite grey. Comfort and innovation are matched with the best available features such as; aluminum skid plate, large off-road tyres, front winch (optional) and its innovative suspension system that eliminates the need for a stabilising bar, which improves both traction and vehicle control when tackling tough off-road terrain. Entirely manufacture in Europe. An off-road beast, blazing a new trail.

MINIMISE FUEL CONSUMPTION

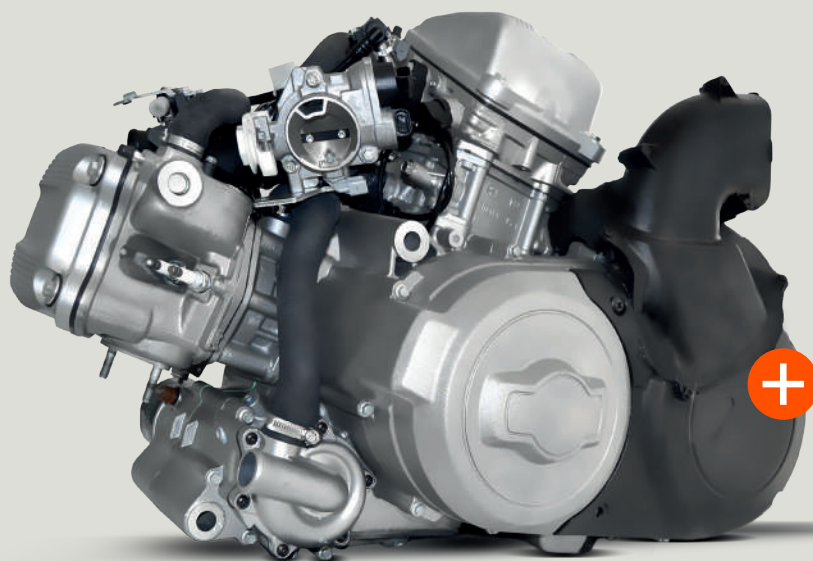

The 40L fuel tank combined with our modern fuel-efficient engine allows you to enjoy a fuel range of up to 300km. Enjoy, the most fuel-efficient side by side buggy by saving fuel in all your daily tasks or exploring new lands. Venture further than before, in search of new trails with the confidence that the AdventureT900 offers.

300 KM
FUEL
RANGE

THE PERFECT DISTRIBUTION

4x4 transmission and front and rear differentials with diff lock as standard on the rear, differential. The 50% torque distribution guarantees the best possible traction and manoeuvring in any moment. This, in addition to the compact design, low centre of gravity, and high ground clearance, provides an unbelievable driving sensation.

STRENGTH AND POWER

With a 4-stroke twin cylinder (70cv) engine using electronic fuel injection that delivers high performance, the new AdventureT900 provides you with a useable power band to fully enjoy any challenge. The twin spark heads and high torque delivery at low revs makes this the perfect engine choice, for any kind of thrill seeker.

ACCURACY AND CONTROL

Maintain exceptional levels of vehicle control at any stage of the challenge, thanks to our exclusive fishbone designed, tubular chassis that gives greater rigidity. Furthermore, the well-designed front axle geometry and anti-dive system will provide improved precision in braking and grip, at the entry point of a turn.

DESIGNED FOR COMFORT

Well equipped to protect occupants from wind, dust, water and mud, with a fixed roof and a laminated/homologated front windscreen with windscreen wiper and water jets to keep the view ahead, clear. The generous interior is both, ergonomic and functional, and can easily accommodate two people.

VERSATILE 4x2

ABSOLUTELY SUPERIOR. IT DOESN'T UNDERSTAND LIMITS. THE ADVENTURE T900 HAS BEEN DESIGNED TO BE DRIVEN IN AN AGILE AND CONTROLLED WAY IN ANY SITUATION AND ON ANY GROUND.

FEEL THE ROAD MOVING FORWARD UNDER YOUR WHEELS

Leave the city behind you, and take your favorite trails searching for the best sunsets.

The AdventureT900 is perfectly designed to ensure comfort all day whilst also providing an elevated feeling of security. It's bucket style adjustable seats with side bolsters keep the occupants safe and ready to face any kind of terrain. A functional and practical interior places all the driving controls strategically to hand.

Maximise your enjoyment by taking with you everything you need in it's large boot located under the front bonnet and the rear and top luggage rack (optional).

1. Integrated roof.
2. Roll bar with butterfly profile.
3. Front laminated windscreen.
4. Windscreen wiper with water jet.
5. Front boot.
6. Ellipsoidal halogen headlamps.
7. Electronic power steering EPS.
8. Aluminium skid plate.

WILD 4x4

ADVENTURE T900 HAS GRIP AND ABILITY TO OVERCOME THE HARSHTEST TERRAIN, YOU CAN IMAGINE.
TREE ROOTS, ROCKS AND UNEVEN SURFACES WILL BE YOUR BEST ALLIES.

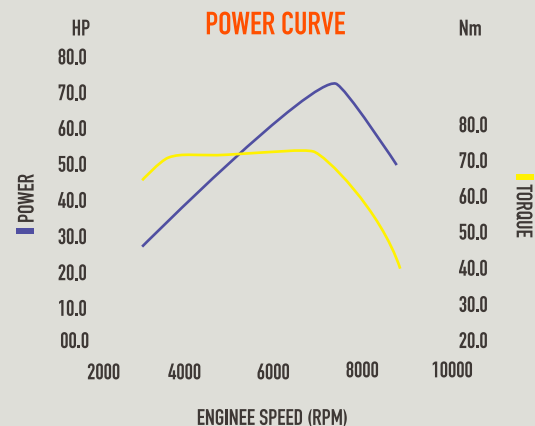

CAPACITY AND **EFFICIENCY** FOR A GREAT ADVENTURE

The AdventureT900 has a strong and generous heart ready to meet the demands of the most challenging and extreme driving experiences. Its petrol engine and automatic transmission, means that nothing gets in its way.

The AdventureT900 suspension systems improve performance since they collectively maximise flexibility, axel tilting and wheel travel. When one or several wheels are in the air its 4x4 system will keep the others in contact with the ground to keep driving forward.

ADVENTURET900

DIMENSIONS/CAPACITIES	
L x W x H	2860x1680x1770 mm.
Wheelbase	2093 mm.
Ground clearance	320 mm.
Dry weight	584 kg.
Payload capacity	250 kg.
Towing capacity	200 kg / 50 kg (load on hook).
Fuel capacity	40 L.

BRAKES	
Front	256 mm disks with twin piston brake callipers.
Rear	220 mm disks.
Handbrake	Yes, for back wheels and independent callipers.

FEATURES	
Control Panel	Rev counter, speedometer, clock, odometer (total km), engine temperature, fuel level, 4x4 traction connection, differential lock engagement, handbrake connection, Engine Control Unit (ECU) warning light, pressure and oil level, brake fluid level.
Light system	High luminosity HELLA 60W hal. headlamps / headlights; optional light bar LED on the roof.
Roof	Yes.
Windscreen	Front laminated homologated windscreen with wipers and rear windscreen.
Antitheft system	Steering lock with security lock.
Protection	Aluminum skid plate.
CE specifications	Indicators, brake lights, mirrors, horn, CE safety belts, fuel tank locked cap. 100% EU vehicle.

SUSPENSIONS	
Front suspension	Double wishbone with anti-dive system, 280mm travel.
Rear suspension	Independent Double wishbone, 280 mm travel.
Damping	Gas shock-absorbers (optional adjustable setting).

ENGINE	900R
Type	Four stroke 830cm ³ 90° longitudinal V-Twin engine – 4 valves per cylinder – double spark plug and liquid cooling.
Fuelling system	Magneti Marelli multipoint electronic injection with 38mm throttle body and electric fuel pump.
Power	70 cv. / 7250 rpm.
Engine torque	77,5 Nm / 5750 rpm.
Gearbox	CVT, clutch L/H/N/R.
Transmission	4x2/4x4, front and rear differential with 50%-50% distribution.
Power steering	Electric power steering EPS (optional).
CO2 emissions	Euro-3 emissions regulations approved.

TYRES (CE) / ALLOY WHEEL	
Front	26x9 R14.
Rear	26x11 R14.

WARRANTY	
CE Model, 2 years.
